

SAT STUDY SCHEDULE for HOMEBOUND STUDENTS

Welcome to The Olive Book! We want you to make the most of your time at home. We don't want you to burn out; we want you to stay fresh. You can do this by thoughtfully and consciously setting time aside to prepare and by following this practice schedule.

The far-right column, labeled "Practice," contains the practice you're to complete. We recommend **completing one part per week** to complete the course by end of the school year (or the June SAT!). Depending on when you start practicing, you might need to complete two or three parts in one week. The parts that are best combined with others are marked with an *.
